

We did it!

And now the kids are riding
25 new bikes on the Eastern Trail

The kids paused just long enough for a group photo before pedaling off to have some fun, because we all know the best part of summer is riding a new bike on the Eastern Trail!

Saco Bikes for Kids & the Eastern Trail Alliance thank all who supported our campaign.

Last month, 25 day campers from Saco Parks & Rec rode over the John R. Andrews Route One Bridge in Saco during an inaugural ride showcasing the new Diamondback trail bikes purchased through generous donations from fans of the Eastern Trail.
